

## COVID-19 Vaccination

### Pre-assessment criteria

Are you 18 years old\* or under or under 30\*\*?

Have you had **any** vaccination in the last 7 days?

Have you ever had an anaphylactic reaction to a previous vaccine or any medications?

Have you tested positive for COVID-19 test in the last 28 days?

Are you currently suffering from any COVID symptoms?

Are you participating in a clinical trial of COVID-19 vaccines?

Are you or are you planning to be pregnant?

Have you experienced major venous and/or arterial thrombosis occurring with thrombocytopenia following vaccination with any COVID-19 vaccine?

Do you have a history of heparin-induced thrombocytopenia and thrombosis(HITT or HIT type 2)?

**If you answer yes to any of these questions you may not eligible for vaccination at this time – Please discuss with us prior to booking your appointment**

\*Under 18s can only have the Pfizer vaccine

\*\*Under 30s will be offered an alternative to AZ
